CLASSROOM: 321

MY QUIET SHIP DESIGN CHALLENGE

DESCRIPTION:

My Quiet Ship will have thick padding made out of foam on the walls to make it extra quiet. The foam will also hold treats like lollipops and cotton candy. I will have big colored buttons on the doorknobs. When I push the red one, a door will open up to a secret art room where I can paint on the walls. When I push the blue one, a door will open up to a secret swimming pool area where I can splash and play with my crew. When I push green, I will enter a secret tinker room where I can build new inventions like a farm-mobile and a computer-generated dentist (because I will be eating a lot of lollipops and candy). Finally, when I push the yellow one, I will enter a secret play-space that has everything happy like rainbows and bouncy houses and hugs. There will be nice music in the hallways and I will go between the floors by climbing up or sliding down the fire pole.

EXAMPLE

SOUND I WISH TO QUIET DOWN: Yelling
