

DESIGNER'S NAME: Darley M.

CLASSROOM: 323

DESCRIPTION:

My awesome monster quiet ship is protected by a kind monster named "Googles".  
Inside, is a secret maze that leads to hidden space treasures. Kindness is needed to  
enter my ship. When you walk upstairs, there is a FUN PLAYROOM where all are  
invited to climb, play, bounce, and swing...not to mention a magic tree that grants  
loving wishes! Climb up my candycane pole to the rainbow floor where the party room  
is filled with candy! By pressing a secret button by the candycane, you are BLASTED  
up into the "nose" of the ship to the command station. Being a commander gets you  
one of the best views in the Quiet Ship. When things quiet down, head to the quiet  
room where the walls are filled with stars and sweet dreams happen. As your space  
travels come to an end, make your way down Googles' tongue slide and don't forget to  
look up, wave goodbye, and thank Googles for an AWESOME space adventure!
